Buick-Pontiac Motors. Stony Plain.

**Stony Plain and District.**

Mr and Mrs Gledhill have returned to their home here, after a four months' visit to their old home in Great Britain.

Mr Murd McKinlay has taken delivery of his new Pontiac sedan, from Agent E H Pidgeon.

Mr Karl Strass moved his family in to Edmonton last week. His desirable bungalow has been taken by Mr J Becker, of the A.W.P. elevator.

Electrician Trapp and staff returned Saturday from Bonaccord, where he had been installing Dejeo plants.

Stony U. F. A Local meets in the Royal Hotel parlor on Sat. next, March 15.

Mr Geo Oppertshausen, the Essex agent, received another consignment of the new 1930 Essex coaches and sedans on Friday last.

**Proposed Municipal Hospital**

As is generally known, efforts have recently been made to establish a Municipal Hospital in Stony Plain. The enterprise included the securing of the commodious residence on Fourth street west formerly occupied by Mr Jacob Miller and family.

When the purchase had been completed, the interior of the building was to be reconstructed, to suit hospital requirements. Negotiations were proceeding smoothly, when the hitch came as to on whom would fall the expense of furnishing the institution. Outfitting the hospital in an up-to-date manner, including an X-ray auxiliary, etc, would mean the expenditure of some \$3000.

It is possible means may yet be found to overcome this difficulty, and this very necessary institution—a Municipal Hospital—established in our midst.

**Farm Changes Hands**

The sale is reported of the Nw. 13, 53, 1w5, the quarter which Mr Gust Heichen has been farming since 1913 quite successfully. The buyer is Mr Conrad Henkel, a neighbor. The buyer will take possession in time to put in this year's crop.

Mr Heichen and family intend moving down shortly to the acreage plot on the Baseline, near town, belonging to Mr Christian Hennig. Mr Heichen has not, as yet, decided where to locate next.

**This Is Fair Warning.**

Every riding in this province will be contested by Liberal candidates in the next election, whether it is held this summer or a year hence, declared W R Howson, prominent Edmonton barrister who is being boomed for provincial leader, in the course of an address at a Liberal rally last Friday evening, in Edmonton.

## Canada and War

Canadians unquestionably are deeply interested in the Five Power naval party now in progress in London. They are really anxious that it should have a successful outcome, and that as a result there shall be not only further reduction in naval armaments, but a new and better understanding established between the great naval powers.

Canada, considering its size, geographical position, population and wealth, spends less on defence of preparation for war than any other country in the world. To all intents and purposes, Canada is and has been disarmed. If other nations maintained armies and navies proportionate to population and wealth reduced to the Canadian scale, the whole world could be said to be disarmed.

Yet Canada knows what war means. During the years 1914-1918, the people of this Dominion learned the bitter lesson of war's tragedies, and each succeeding year, since 1918, has only served to emphasize that lesson. Canada paid in the loss of its young manhood, in its army of wounded, many maimed and crippled for life or permanently undermined in health. Canada paid them, in paying now, and will continue to pay for many years to come, in dollars and cents for the huge cost of war and war's destruction.

Even so, it is doubtful if the average Canadian realizes what war, even preparation for war, actually means to this old world. As already stated, Canada's annual expenditure for war purposes—that is, aside from the burden imposed by the Great War for which our people were in no sense responsible, but participation in which was a duty forced upon us—is slight, almost negligible, a very small percentage of our total annual expenditure as a nation. But this is not true of all other great nations, and most of the small and minor nations.

For example, the United States, removed from the dangers and complexities of European entanglements, and largely occupying a position of isolation, spends on its armament budget a larger sum annually than any other country in the world, although the percentage of its total income so expended is smaller than in other countries. And it is a startling fact that the amount so expended is increasing. In the four years before the Great War the average annual expenditure of the United States on armaments was \$460,000,000. Ten years later it had risen to \$579,000,000. If Canada followed the example of European nations, we, too, would be spending a crushing amount merely because our next door neighbor is doing so.

In 1913, before the war, Great Britain's armament expenditure was just under \$400,000,000. Last year it was \$575,000,000. Every one of the Great Powers, except Germany, which was compulsorily disarmed, is spending much more today on armaments than was spent before the Great War. And this despite the League of Nations, the Kellogg Peace Pact, and treaties galore pledging the nations not to engage in offensive warfare.

Great Britain spent \$50,000,000,000 on its part in the colossal tragedy of the Great War. It left Great Britain with a war debt of over \$35,000,000,000. Interest on that sum calls for \$1,720,000,000 a year. For debt purposes alone Great Britain has to tax by taxation \$5,000,000 a day, or \$3,000 every minute. It takes the whole time labor of 2,000,000 workers year in and year out to pay the annual cost of the debt burden. Add to this the \$575,000,000 spent annually on armaments, and \$280,000,000 for pensions, and a total of \$2,600,000,000, or \$5,000 a minute has to be raised by taxation, or three-quarters of the whole amount of all Government expenditures. Is it any wonder there is business depression and unemployment in the British Isles?

If the London Naval Conference is successful in part only, namely, the matter of what are termed "Capital" ships, the saving to three countries alone, Great Britain, United States and Japan, will amount to \$1,000,000,000, or twice the total annual expenditure of the Government of Canada for all purposes. Or put it another way, if Manitoba could take into the treasury of the Province the sum saved when construction of but one 10,000 ton cruiser is cancelled, not only would all Manitoba's bills be paid for an entire year, but a surplus of \$5,000,000 would remain on hand.

Apart from all humanitarian, Christian reasons for disarmament, the above figures indicate the economic dollars-and-cents aspect of this great problem.

Canada paid, and is paying for war; let us pay and pay generously and ungrudgingly for peace by supporting the League of Nations with all our power. Every individual Canadian, man, woman and child, should be a peace advocate, an unqualified supporter of the League, and full Canadian participation in the League. They should unitedly pray for the success of the London conference.

"Where did Brown get all his money?"	She: "Have you any poor relations?"
"In the hold-up business."	He: "Not one that I know."
"Never!"	She: "Have you rich relations?"
"Yes. He manufactures garters."	He: "Not one that knows me."

## Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention, it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

## May Use Pulverized Coal

B.C. Department Of Mines Investigating Its Advantages

The British Columbia Department of Mines, fully aware of the difficulty which the coal industry has been facing, has been making investigations into the uses and advantages of pulverized coal, and has secured the assistance of the fuel research laboratory at Ottawa. In an address before the Vancouver Chamber of Mines, J. D. Galloway, provincial mineralogist, expressed the opinion that if pulverized coal were used properly there would be no excuse for the importation from California into British Columbia by single barrel of fuel oil. British Columbia produced 2,313,900 tons of coal last year. Of this, about 140,000 tons were used in pulverized form in various industries. The Vancouver Province says it seems highly probable that if the uses and advantages of pulverized coal and the facilities for using it were brought more forcibly to the attention of the people of the province, a better day might dawn for one of British Columbia's important industries.

## WAS RUN DOWN AND VERY WEAK

Too Little Blood The Trouble and Tonic Treatment Restored Health

"I am writing to tell you," says Mrs. James A. Haugh, Bridgewater, N.S., "the great health benefit I received through the use of Dr. Williams' Pink Pills. I had become badly run down and very weak; so much so that I could only with difficulty do my housework. I suffered from headaches, and had very little desire for meals. The trouble affected my nerves, and as a result I did not sleep well at night; and would often awake with a throbbing sensation, and would have to sit up in bed. I was taking treatment, but it did not help me and I was losing courage, when I saw an advertisement of a case which seemed much like my own, which had been relieved by the use of Dr. Williams' Pink Pills. I decided to give this medicine a trial and got two boxes. Before these were gone there was an improvement in my appetite, which seemed a hopeful sign. I procured a further supply of the pills and found a steady improvement in my health. I could eat well, sleep soundly at night, and my housework was no longer a task beyond my strength. From my own experience I would advise weak, run-down people to give Dr. Williams' Pink Pills a fair trial, feeling that what they have done for me, they will just as readily do for other similar cases."

If you will send your name and address to Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you prepaid. This little book contains many useful health hints. You can get these pills through any medicine dealer or by mail at \$6 a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## B.C. Lumber Industry

The records of the Forestry Department indicate that the cut of poles and piles from the British Columbia forests during 1920 totalled 39,453,489 lineal feet or an increase of 8,000,000 feet over the 1928 output.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

## World's Poultry Congress

At the World's Poultry Congress, to be held in the Crystal Palace, London, England, next July, Canada will be a conspicuous participant. The Canadian exhibit of live birds will total about 1,000. The last World's Poultry Congress was held in Ottawa, in 1927.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

"Is your wife having any success in learning to drive the car?"  
"Well the road is beginning to turn when she does."

Use Minard's in the Stable.

W. N. U. 1828

## If Baby has COLIC

A cry in the night may be the first warning that Baby has colic. No cause for alarm if Castoria is handy! This pure vegetable preparation brings quick comfort, and can never do the slightest harm. Always keep a bottle in the house. It is the safe and sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the

taste of Castoria, and its mildness makes it suitable for the tiniest infant, and for frequent use. And a more liberal dose of Castoria is always better for growing children than some needlessly strong medicine meant only for adult use. Genuine Castoria always has Chas. H. Fletcher's signature on the wrapper. Prescribed by doctors!

## Two Valuable Recipes

### CREAM RICE PUDDING

4 tablespoons rice.  
½ cup sugar.  
½ teaspoon salt.  
2½ cups Borden's St. Charles Milk.  
1½ cups water.

Wash the rice thoroughly, then add with the sugar and salt to the milk diluted with water. Pour into a buttered baking dish and add a sprinkling of nutmeg. Set the dish in a pan of hot water and bake three hours, or a slow oven (300 degrees Fahrenheit), stirring several times the first hour to prevent the rice from settling to the bottom. Serve hot or cold.

### CREAM OF TOMATO SOUP

2½ cups canned or fresh cooked tomatoes.  
½ small onion, sliced.  
1 stalk celery, minced.  
1 tablespoon minced parsley.  
½ cup leaf.  
2 whole cloves.  
1 teaspoon salt.  
½ teaspoon pepper.  
1 teaspoon sugar.  
¼ teaspoon soda.  
2 tablespoons butter.  
1½ cups Borden's St. Charles Milk.  
1½ cups water.

Add seasoning to tomatoes and simmer fifteen minutes, strain. Melt butter in saucepan, stir in flour. Dilute milk with water and pour slowly into butter and flour, stirring until it thickens. Continue to cook five minutes. Just before serving, add soda to tomatoes, gradually add tomatoes to white sauce, stirring constantly, serve immediately.

At or any of the vegetable seasonings may be omitted, but their addition gives a smooth, well-blended flavor to the soup.

## Two New Words

Two new words, "enplane" and "deplane," are to be included in the forthcoming edition of the American New Standard Dictionary. The rating of the two words is impeccable, it is added, according to the editor of the dictionary, who says that their use in air transport is synonymous to that of "entrain" and "detrain" in railway service.

## WRIGLEY'S

Alertness scores everywhere.

Wrigley's creates pep and energy and keeps you alert.

A 5¢ package may save you from going to sleep at the wheel of your car.

## Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

## Romans Constructed Roads Which Are Still In Use After A Lapse of Twenty Centuries

The first builders of roads were the Romans. The main highways across Europe, many of them still in use after 2,000 years, remain as monuments to the supreme mechanical genius of the old Romans. Not only did they plan their roads on the principle that the straight line is the shortest between two points, but they built them so well that, with minor changes, the modern cities of Europe still depend upon them for their communication by automobile.

The English word "road" probably comes from the Old English word compounded from a verb meaning to ride a horse, while our word "street" comes from the Latin strata, a paved way, one of those streets of beautifully matched stones which the modern traveller may still see, with the ruts made by the chariot wheels of the vanished citizens in Pompeii and Herculaneum.

When the Romans set out to conquer the whole known world of their day, their practical mind came to their assistance, and they built as the long arm of their conquests spread around the shores of the Mediterranean, permanent, highways throughout their empire, primarily for the swift and safe movement of their troops throughout all the countries they conquered.

Their first principle was to draw a straight line between their most important camps. The Apian Way, which was begun in 312 B.C., one of their greatest achievements, extended throughout the length of the Italian peninsula from the Forum in the Eternal City itself to Brindisi, from which the legions embarked on their journeys to the east. The pillar set up by Pompey to mark the southern extremity of the great road may still be seen in the modern city.

The Romans built their roads by first cutting parallel trenches through the soil to indicate the width of the roadway, removing loose earth until a solid foundation was reached. Upon this four layers of materials were beaten down, the lowest usually of flat stones sometimes laid in mortar, above which a layer of coarse concrete of smashed stones was superposed. Above this was a layer of finer stones or concrete, on which was laid a surface of fine stones carefully matched. The width of some of their roads was 14 feet, on each side of which were unpaved roadways half as wide again.

These great roads, which spread out fanwise from the great city which gave the empire its name, were kept in repair long after the legions had passed the dust, and in rise and growth of trade routes and the cities which supplanted the "castra" of the Roman soldiers.

Any one who has motored in France will be grateful to the genius of these old Romans in planning their military roads—later to be repaired and lined with trees by Napoleon for his legions—remembering the tortuous and winding roads of this country which have perpetuated in concrete the wanderings of prehistoric cows of the early American colonists. Wherever the road in Europe straightens and aims for a distant star, the motorist may be sure that his car is following the path of that great empire of Rome.

In Paris, few motorists realize that the long, straight line of the Boulevard St. Michel is the old Roman road to the south, and the Boulevard Sebastopol, its continuation to the Roman cities of the north. And the

motorist leaving London on the Great North road passes over a highway laid out by the legions who pushed their conquests as far as the Great Wall.

Every road map of England shows tiny dotted lines where, in the course of centuries, in spite of the growth of the villages and the fluctuation in importance of the market towns, the old Roman road still exists, sometimes as a mere cart track, and at others merely a line of hedges, still standing as a monument of the busy life which passed away before even William the Conqueror gathered his armies across the channel.

The excavations for the huge buildings which London is now substituting for the older ones of a London of rumbling wagons and hansom cabs still turn up remains of the Roman city. A milestone of the Roman road still exists and has been preserved as a venerable memorial of the town which grew along the Thames, centre of long, straight roads leading over moor and heath to the limits of the islands of the fair-haired Angli.

One of these roads, long after its first pagan travellers had passed into the dusk of Imperial Rome, came into a new life as the highway over which Chaucer's pilgrims went piously to the shrine of the most famous saint of medieval England, St. Thomas, in the great church in Canterbury. New York Times.

### Stick To Old Fashion

Men Adverse To Making Any Change In Style Of Clothing

Women's styles undergo drastic changes with amazing rapidity, as their husbands' pocketbooks can testify, but men's fashions have remained much the same throughout the centuries, despite attempts to make them more comfortable or more beautiful. According to Fraulein Helene Dille, of Berlin, who is an authority on the subject, physicians have been trying to make men reform their styles for centuries, but the males stubbornly cling to their tight collars, and belts and heavy suits.

### Winnipeg Newspaper Union

EVEN THE APRON!

The new silhouette! It's the princess type. It flares. It's longer. And in general, it's more graceful and more stylish.

You might just as well keep in step with the mode while you are at home among those whom you think most of.

This apron pattern is No. 3067 and it cuts in sizes small, medium and large. It is one of many styles for home wear in our Spring Fashion Magazine.

Of course the new book also contains lingerie, children's designs, embroidery sportswear and the most charming dresses for afternoon and informal evening wear.

While you have the matter in mind, send 15 cents in stamps or coin for this book. There is a pattern for each style and at cost price as a service to our readers. So you'll save the price of the book over and over again. Mail your order now to Pattern Dept.

### C.P.R. RADIO CONCERTS

The men behind the C.P.R. radio concerts from stations CKAC and CKGW, Montreal and Toronto, Alfred Heather (above) who will direct operettas and ballad operas; and Rex Battle (below), conductor of the symphony orchestra. These concerts are on the air every Friday night between 10 and 11.

### Successful Farm Placements

Canadian Colonization Association

Settles 427 Families In Alberta  
Alberta led the western provinces in the number of successful farm placements made in 1929 by the Canada Colonization Association, when a total of 427 families were settled on 50,803 acres, said W. R. Dick, superintendent of land settlement for the province, at a meeting in Calgary the other day. The Association is a subsidiary of the Canadian Pacific's Department of Immigration and Colonization.

### Asserting Their Freedom

Portuguese women are breaking away from their centuries-old bondage. There are in Lisbon something like 30 women physicians, two score lawyers, two philosophers, a dozen poets, half a dozen women painters, two women bull fighters, and one aviatrix. Hundreds of girl students are graduated every year from the country's universities and join men in professions hitherto held exclusively by them.

One shoe dealer in France, says shoes intended for American women, are too narrow for the French feminine foot.

### TO BE PRESENTED AT COURT

Here is a charming portrait study of Diana Chamberlain, daughter of Sir Austin and Lady Chamberlain, who will be presented at court this year.

## Scientists Enabled To Explore The Interior Of the Earth To a Distance of Many Miles

### Shipping Bees

With Greater Interest In Bee Keeping, Demand For Live Bees Is Necessary

With spring just around the corner the beekeeper's busy season is soon to start. In a pamphlet just issued by the Department of Agriculture, C. B. Gooderham, B.S.A., the Dominion Apiculturist, discusses the important problem of bee shipment, both how to package bees and how to handle them. Apiaries are being built up rapidly all over Canada, and the demand for live bees is increasing. Mr. Gooderham finds that the package and shipment of bees presents no substantial difficulty, successful shipments having been made across Canada and from Alabama to Ottawa.

The bee package, including a queen, weighs about two pounds and contains some 10,000 bees. Some reasonable safeguards are necessary to insure good results and Mr. Gooderham deals with these in his pamphlet.

### Will Effect Great Saving

Beet Tops, Formerly Discarded, Are Rich In Sugar

Ten million dollars gained simply by shifting the position of an agricultural knife one and one-half inches—this is the latest offering of science to national wealth. Dr. Ernest Reed, professor of botany at Syracuse University, has questioned the belief that sugar is concentrated principally in the heart of a beet. In accord with this belief a practice in the west has been to send "toppers" through the beet fields, slicing off not only the leaves but also the supposedly barren top section. Through years of work, and by developing a new method of testing for sugar, Professor Reed says he has proved conclusively that the discarded tops are rich in sugar.

### Gravity Comparisons

Decidedly Delicate Operation Involved In Connection With Pendulum

Measurements of the force of gravity at various points throughout the country are made by the Dominion Observatory, Ottawa. This involves the measurement of the period of a pendulum to one ten millionths part of a second—a decidedly delicate operation. Results of these investigations are intended to throw light on the nature of the upper layers of the earth's crust, and are closely related to geological formations and such processes as denudation and mountain-building.

Bournemouth, England, plans to have a trackless trolley system.

With the aid of the seismograph, the instrument which records the tremors of earthquakes, scientists are able to explore the interior of the earth to a depth of perhaps 2,000 miles. Dr. Bailey Willis, of Leland Stanford University, said at the meeting of the Geological Society of America in the American Museum of Natural History, New York.

"Thus we know," Dr. Willis said, "that there are two parts of the earth: an envelope 2,000 miles thick which consists of elastic rock, and a core that is 2,000 miles in radius and apparently inelastic. The core is of heavy material, probably largely iron.

"The inelastic condition of the core is characteristic of melted substances. The core is exceedingly hot and it may be melted, but even so it must be an excessively sluggish, viscous body because of the pressure of the envelope, which rests upon the core with all its weight; something over twenty million pounds a square inch. Thus within a heavy ball, which may be melted; around it is an envelope of heavy rock, and the outside skin on which we live consists in part of the basalt, in part of granites."

The centre of the earth, Dr. Willis explained, is a sort of heat engine, constantly diffusing its heat toward the outside skin. As it escapes from the innermost core the heat is unable to penetrate immediately through the outer envelope of heavy rock. Instead it is diffused sideways and forms, beneath the earth's surface, an immense blister several hundreds of miles across and twenty or more miles deep. These blisters, technically known as asthenolites, are made up of a relatively light rock, granite and basalt, a heavier rock which contains a high proportion of iron.

From time to time one of these blisters bursts through to the surface and a new continent is formed. The granite, being lighter, floats up to form the continents as we know them. The heavy basalt, which, being heavier, cannot rise so far, makes the ocean bed.

"A blister requires perhaps several million years to grow," Dr. Willis said. "A very large number of eruptions, a great many asthenolites and an enormous lapse of time must have been required to form Africa, Eurasia and the Americas in this way. Thus it is that though the same processes are being continued today beneath the earth's surface the human race may yet pursue its customary occupations unperturbed, for some millions of years probably will pass before either Europe or America is submerged beneath the ocean and new continents arise to take their places."

### Western Manufacturing

Output Of Three Prairie Provinces In 1929 Establishes a Record

A manufacturing output of \$350,000,000 is the 1929 achievement of the three Prairie Provinces of Canada in the field of industry, according to figures compiled by G. E. Carpenter, secretary of the prairie division of the Canadian Manufacturers' Association. The figure is a record one. The Association itself has made large strides in recent years in the provinces. In question, the membership having risen from 50 in 1914 to 600 at present.

"Waiter, are you ill?"

"No sir, I only burnt my thumb in your soup."—Lustige Kölner Zeitung, Cologne.

"What animal comes nearest to man?"

"A flea, sir."—Lustige Kölner Zeitung, Cologne.

## NEW HOPE FOR THE CAUSE OF DISARMAMENT

London, England.—New hope for the cause of disarmament at a time when critics of the London naval conference are growing because of delays, was contained in a statement issued by Colonel Henry L. Stimson.

The informal statement by the head of the American delegation declared that not only naval limitation but a reduction of at least 220,000 tons in the United States fleet, and an even greater cut in the British fleet could be achieved at the London conference.

The statement, issued in response to many appeals from the United States as to what the conference is doing follows:

"There seems to be an impression that the work of the American delegation at this conference is likely to result in an increase instead of a reduction in tonnage of the navies of the world.

"The surest way to answer that is to give such results as seem to be within reach up to date. A plan which in its essentials appears to be acceptable to America and Great Britain provides for net reduction in tonnage of the American fleet in capital ships, cruisers, destroyers and submarines—built, building or appropriated for—of over 200,000 tons and an even larger reduction on the part of the British fleet.

"If vessels authorized but not commenced were concluded in existing fleets, the net reduction would be much greater. Of course, these reductions are contingent upon some reduction being made in the fleets of other powers."

The Stimson statement came unexpectedly at the close of a day of meetings and conference from which came only the same reports of uncertain progress that have featured proceedings since the French political crisis arose.

## Prison Keeper Killed

Official Of Auburn Prison Stabbed To Death By Inmate

Auburn, N.Y.—Edward L. Beckwith, prison principal keeper, was stabbed to death in the mess hall of the institution by Anthony Mortillaro, an inmate, and became the third in succession in that office to lose his life at the hands of a convict.

The news of the fatal stabbing came at the height of the trial of Max Becker, gunman and gangster of Brooklyn, and a convict, charged with the murder of the man Becker with succeeded—George A. Durnford. Supreme Court Justice Benjamin B. Cunningham immediately recessed court.

Durnford was killed in the second prison riot at Auburn within five months in 1929, that of December 11. About two years ago James B. Burman, whose place Durnford took, was cut down by a stabber. The stabber was seized.

Beckwith was stabbed near the heart. Troopers said there was excitement but no disorder in the hall. Many of the convicts jumped to their feet to see what was happening, but sat down immediately at order from their guards.

Beckwith was born in Canada on November 14, 1874, but the city of his birth was not known at the prison. His wife, critically ill at her home here, was informed that her husband had been taken ill.

## Will Help Canada's Trade

Tokyo.—Before leaving for Canada on a six months furlough, A. Brostot, Oriental traffic manager of the Canadian National Railway, expressed the opinion that recent strides made in Japanese shipping and port facilities would have a good effect on Canada's trade with Japan.

## Breaks International Law

Peiping, China.—Contrary to international law, Germany is reported to have shipped large quantities of poison gas to China for use by forces of President Chiang Kai-Shek. Chinese Chamber of Commerce has protested to the German consul-general at Shanghai.

W. N. U. 1828

## Mounties Find Body Of German Scientist

Mystery Surrounding Disappearance Of Dr. Kurt Faber Is Solved

Edmonton.—Believed to have fallen victim to a northland blizzard and his body torn and disfigured by wolves, the remains of Dr. Kurt Faber, noted German journalist and scientist, was found Saturday, March 1, by a Royal Canadian Mounted Police patrol, 15 miles above Lower Hay River post in the Northwest Territories, according to information reaching here.

Only the most meagre details were contained in a brief wire received at R.C.M.P. headquarters, which told of the finding of the body of the missing northern traveller, who left Edmonton in September of last year, intending to proceed from Peace River to Fort Vermilion, down Hay River to the lower post on Great Slave Lake and then continuing to Fort Resolution and Fort Smith to Fort McMurray. The greater part of the journey was to have been made on foot.

Enquiries have been broadcast throughout the north for any information as to Faber's whereabouts since last December at which time Dr. K. Martin, German consul of Winnipeg, had been asked to notify him of the death of his mother in Berlin. Since January both Alberta Provincial and Royal Canadian Mounted Police patrols have been on the lookout for the body.

Dr. Faber was a free lance correspondent for the well known Scherl syndicate of German newspapers and had travelled in many parts of the globe in his profession.

## Promise Highway To Saskatchewan Border

Road From The Pas Is, However, Subject To Conditions

The Pas, Man.—Citizens of The Pas, have been definitely promised a highway from here to the Manitoba-Saskatchewan border if the Saskatchewan Government would build a road to connect with the proposed highway from Hudson Bay Junction, north of Prince Albert, Sask. Premier John Bracken, of Manitoba, told a meeting of the citizens that a road from The Pas to the border would be built under this stipulation.

The Premier said his government was now engaged in completing its program of main trunk road extensions, and nothing would be added until that program was completed. He added, however, that in the next program the road from The Pas to the Saskatchewan border would be the first construction undertaken.

Premier Bracken indicated that the Manitoba Legislature would shortly pass a resolution urging construction of the Mafeking railway cutoff. He hoped this would receive favorable consideration from the Canadian National Railways.

In concluding the Premier intimated that the support of his government would be extended to the Imperial government if it displayed interest in the reclamation of the Carrot River triangle as an area for settlement of British agriculturists.

## Fourteen Killed By Landslide

Rock Crashes Down Cliff On Gay Carnival Crowd

Funchal, Madeira.—Sweeping down from a high rock hanging over the sea, a large landslide killed at least 14 persons, including several children. Directly underneath the cliff a carnival was in progress.

Scores of children were playing on the beach when the tons of rock slid down the cliff with a terrific roar and crashed upon the beach in the sea. The scene of gale quickly gave place to cries of mothers, who fainted as the bodies were brought out of the earth and rocks.

## Will Resume Hunt

London, England.—Prince of Wales has recovered so rapidly from the sub-terran malaria, that he will resume his hunting immediately. A despatch to The Daily Mail from Nairobi, Kenya colony, said he probably would go to Entebbe, Uganda, on Lake Victoria, and use a lake steamer as a base for his expedition. No more bulletins on the prince's condition will be issued at Nairobi.

## GENTLEMAN USHER

Major Drew Thompson, who is gentleman usher of the black rod, a rank in the Federal House of Parliament at Ottawa, corresponding to sergeant-at-arms in the provincial legislature.

## Brydges Wins Dog Derby

Finished Race Twelve Minutes Ahead Of St. Godard

The Pas, Man.—Battling obstacles which for the past few years have thwarted him in his efforts to win major dog races, Earl Brydges, 22-year-old Northern Manitoba musher, has captured his first 200-mile The Pas dog derby.

Emil St. Godard, the champion and the favorite, finished twelve minutes behind Brydges. Brydges crossed the finish line at the north end of the town here at 12:19 o'clock to the cheers of hundreds of spectators.

He was carrying one dog, of his nine dog team, on the sleigh. Emil's team, visibly tired, finished at 12:31 o'clock, he was carrying three dogs on his sled, but Toby, the famous leader, was still in the key position at the last.

In capturing the derby Brydges won the first prize of \$1,200 cash as well as the Grant Rice-Walter Goynes trophy.

## Equal Franchise Bill Rejected

Quebec Legislative Assembly Opposed To Votes For Women

Quebec.—By a vote of 44 to 24 the legislative assembly defeated the measure introduced by Irene Vaurin, Liberal, St. James, to give women the right to vote in provincial elections.

While the vote was adverse to the feminine cause, adherents were gained, and in speeches made by Hon. A. R. McMaister, provincial secretary, it was laid down with emphasis that sooner or later the cause of women would win. The vote was not a party one, the cabinet splitting. Premier Taschereau voted against the bill.

## Air Mail Popular

Ottawa.—Total of 430,638 pounds of mail was carried over Canada's 20 air mail routes during 1929 at a cost to the country of \$474,071. Heaviest route was between Narrows Lake and Sioux Lookout, Ont., where 55,406 pounds were carried.

## NEW RED CROSS HOSPITAL AT EDMONTON

For the second time in a few months we are able to print pictures of a new Junior Red Cross Crippled Children's Hospital in Alberta. Above is shown the exterior and one of the wards in the new hospital at Edmonton, opened in January. It has a capacity of 35 beds.

## Immigration Policy Changes

Federal Deputy Minister To Interview Provincial Governments

Winnipeg, Man.—Changes in the immigration policy of Canada decided upon by the Dominion cabinet, were laid before Hon. Albert Prefontaine, Minister of Agriculture, and Hon. R. A. Hoey, Minister of Education and acting premier, by W. J. Egan, Federal Deputy Minister of Immigration.

Following the conference the two Manitoba officials made a formal statement in which they declared that "they are glad to advise that the general policy laid down in connection with provincial co-operation is, in their opinion, workable, but they are not prepared to discuss details until they have a further conference towards the end of the month."

Mr. Egan said that he had nothing to say about the Dominion government plans. He would interview every provincial government from coast to coast, he declared, before any official announcement would be made.

Questioned about the term "general policy," Mr. Prefontaine replied this meant the plans outlined by the Federal Government. The Minister of Immigration, he said, had made tentative arrangements which would be subject to change.

## High Cost Of Burial

Funeral and Undertaking Charges To Be Investigated By Alberta Government

Edmonton.—Funeral cost and undertaking charges in general will be investigated by the Alberta Government as a result of a motion adopted unanimously by the House and introduced by W. W. Prevey, Liberal, Edmonton, reading as follows:

"That in the opinion of this assembly the government should give early consideration to the whole subject of undertaking and particularly to the prevailing charges and costs thereof and if necessary to introduce legislation regarding the same."

## Ex-Service Men Represented

Eleven War Veterans On Committee Probing Soldiers' Problems

Ottawa, Ont.—In the composition of the special parliamentary committee on pensions and returned soldiers' problems, the prime minister has carried out his promise to have that body so constituted that ex-service men of all parties would have adequate representation. Of the 19 members of the committee, 11 are war veterans, of whom six are Conservatives and five are Liberals, and of the remainder, several had sons who were overseas.

## Makes Altitude Record

New York, N.Y.—Driving his twin motored Sikorsky to an apparent altitude of 19,500 feet, Capt. Boris Berievsky, late of the Imperial Russian Air Corps, brought back to his adopted country the altitude record for seaplanes carrying a useful load of 3,000 kilograms (4,408.3 lbs.). The old record, held by France, was 15,537 feet.

## TARDIEU CABINET EMERGES WITH GOOD MAJORITY

Paris.—Andre Tardieu's second cabinet ran the gauntlet of the Chamber of Deputies, and although roundly thumped by the parties of the Left, it emerged with a favorable majority of 53. The rectified ballot was announced as 316 to 263.

The appearance of the second Tardieu cabinet before the chamber with its ministerial declaration was the signal for one of the bitterest parliamentary battles the chamber has ever witnessed, the sessions being suspended at one point.

The premier's declaration was interrupted by a tumult from the Socialist and Radical benches.

The opposition, smarting under its failure to regain power with the Chautemps cabinet, taunted the deputies on the left who had accepted portfolios in the new ministry, and drowned the premier's voice.

Tardieu merely smiled at the demonstration and finished reading his declaration.

The winning margin of confidence was almost twice as great as political forecasters had been ready to grant the cabinet in advance of the voting. Most of them agreed that a margin of 30 votes would be a sign of strength for Tardieu, and as the bitter debate on the ministerial declaration of policy progressed, some of the prognosticators began to believe that the cabinet would be lucky to win at all.

As a consequence the government will go back to the Chamber of Deputies, and will face the chamber on the question of ratifying the Young plan, revising taxes and passing a budget with enhanced prestige.

The new naval delegation consists of Premier Tardieu, Aristide Briand, foreign minister, J. L. Dumesnil, minister of marine, Francois Pietri, minister of colonies, Ambassador De Fleuriau and Senator Gustave De Kerguel. Of these, Tardieu, Briand and De Fleuriau were members of the original delegation.

The naval conference has been proceeding without the French officially represented, but its progress has necessarily been slow, and the reappearance of the French will be the signal for resuming the negotiations at full speed.

## Air Mail Benefits Coast

Eastern Cities Are Brought Two Days Closer Through Prairie Service

Vancouver, B.C.—Vancouver, once an outpost and even yet a little isolated from the East by the height of mountains, was brought 24 hours closer to the prairie, and 48 hours closer to Atlantic cities, with arrival of the first all-Canadian air mail from Winnipeg.

Several thousand letters, posted in Winnipeg, Monday night, were carried as far as Calgary by aeroplane, and arrived here by train at 9:30 o'clock on Wednesday. They were being delivered to city residents an hour and a half later.

With this new service, a whole day is cut from the communication, time to prairie cities lying east of Moose Jaw, and two whole days to Hamilton, Toronto, Halifax and various nearby United States and Canadian cities.

## Morphine Seized At New York

New York, N.Y.—Vandalism, once at about \$500,000 was seized on pier 57, North River, leased by the French line, in two large trunks apparently owned by a first-class passenger on the "Ile de France," who had left the vessel a few minutes before, it was learned.

## Report Is Denied

Ottawa.—Reports that a large number of Monties had been entering Canada recently, were brought to the attention of the House of Commons by Hon. R. J. Manion, (Cons. Fort William) and denied by Hon. Charles Stewart, acting minister of Immigration.

## Death Of Viscount Gladstone

London, England.—The Rt. Hon. Viscount Herbert John Gladstone, youngest son of William E. Gladstone, of Victorian fame, died from an illness which began with an attack of bronchitis in January. He was in his 70th year.

### Stony Plain and District

Mrs. Louie Willis was taken in to an Edmonton hospital Monday, for treatment.

Miss Emelia Miller, Edmonton, was a week end visitor in Stony.

Mr. Ed Sommerfield returned on Saturday from a motor trip to Rochfort Bridge.

Inga Councillors assemble in Stony Plain today, for their inaugural meeting.

A party of Walther Leaguers met Tuesday evening at St. Matthew schoolhouse and marched to the home of Mr. and Mrs. Karl Enders, on whom they made a surprise visit. The evening was spent in a pleasant manner.

Mr. McLeod, a travelling agent, moved up from Lacombe this week, and is now occupying the lower deck of the Montreal building.

A demonstration of the educational work which is being carried on by Walther League was given this week by the W.L. local unit in the building formerly occupied by the Stony Plain Pharmacy. The display was in charge of Mr. Val J. Kulak, president, as assisted by his officers.

Meridian Lodge held its regular monthly session Tuesday evening, in Masouic hall. After the proceedings closed, lunch was partaken of, served by Caterer L. M. Larson.

Blacksmith R. Breitkreutz has added to his shop equipment a 6 h.p. electric motor, purchased from and installed by Stony Plain Hardware.

Mr. Paul Werner, agent for Dept. of Colonisation, C. N. Ry., this week received his first consignment of workers. Farmers or others wishing help for the spring operations should let Mr. Werner know at once. "Call, phone or write."

Those attending the P. Baron sale Monday next will take the turn south 1 mile west of Rosenthal school. Motorists will find the road open all the way.

On Monday next, March 17th, there is to be a Saint Patrick's concert at Onoway, with Barth's orchestra supplying music for the dance to follow.

Remember the new address of the Stony Plain Pharmacy, Main St., one block south of the old stand.

### United Church Notes.

At Spruce Grove church on Sunday last Mr. and Mrs. Sherwin sang a duet entitled "In the Beautiful Garden of Prayer."

At Holborn Miss Marcella Larson has been appointed organist.

The sermon on Sunday last was upon the subject "The Indwelling Christ," from the text "Christ in you the hope of glory."

Good Friday service at 8, in Stony Plain.

Service on Easter Monday at Spruce Grove, 8 p.m. Special speakers and singing on both occasions.

### The Katzenjammer Korner.

Those who read French may receive some enjoyment from this Quebec donkey driver's statement: "Je ne suis pas ce que je suis, car, si j'étais ce que je suis, je ne serais pas ce que je suis!"

### Spruce Grove News

On Friday evening last Capt. Gibson held a Scouts meeting in Atim Lake school. The meeting was for the benefit of the youths unable to attend the Scouts' weekly meeting at the Grove. During a boxing contest, Otto Pootz had the misfortune to have his arm broken.

A masquerade dance will be held Monday evening next in Winterburn hall. Forrest's will supply the music.

Dave Bell has installed a new type triple air compressor at his garage. This enables his many patrons to get free air when desired.

Messrs. A. E. Michaels and F. W. Yeates were business visitors to the Grove on Sat. last.

The Spruce Grove Restaurant has added a new delicacy to its menu card: Macaroni Au Gratin.

Wm. McLeod, I. H. C. dealer, last week unloaded his first car of machinery for this season.

The Schwindt Block is undergoing extensive repairs, for the personal safety of the inhabitants and also for pedestrians.

Mr. C. Ries, Vernon, who had been here on a visit, has returned home.

Auctioneer Dan Brox is holding a sale in Rosenthal district on Monday next, for Pete Larson.

The representatives in this district for the Bot exterminator are Mr. C. McKinlay, organizer, and Mr. Adolf Schoep as treasurer. In Winterburn district the representatives are G. Grierson, organizer, and Messrs. Cairns & Love, treaters.

Mr. Jack Nichols will shortly install a Frigidaire outfit in his restaurant.

Auctioneer Ball, of Tofteld and Edmonton, has been giving this district a survey, looking up prospects.

A teamster from east of Edmonton with five team of horses, who intended going north to cut kiln wood, stopped at Mr. Brox's barn the first week in December last. He pulled out a few days after, but left a team as security for his stopping expenses. Mr. Brox has not heard from the teamster since, and would be pleased to get any information as to his present address. Dan has the team still.

SPRUCE GROVE

### Sluething by Radio

(Photos by Courtesy Northern Electric Company Limited.)

Detroit police radio equipped cars made 1,193 arrests in 1928. In September last year they made 175 such arrests in an average time of 61 seconds each. These arrests ranged from bank hold-ups to kidnapping and from petty crimes to murder. Fifty specially equipped Ford phaetons patrol the entire city day and night under the direct control of police radio system headquarters.

Above, left to right, the headquarters, note the microphone through which the operator transmits to all cars, particulars of crimes as received. Typical downtown scene through which police cars operate. Below, the police radio headquarters. One of the radio equipped patrol cars, note receiving set at the back of front seat.

### Carvel Clippings

There will be no R.C. services here next Sunday.

Mr. Ph. P. Miller, who had been operating his sawmill at the Baseline corner for some time, has moved up to Callahoo.

The Police have been investigating reports that muskrat houses are being broken into and rats trapped illegally by hunters. Operations have been carried in at several places, but more particularly on the lake at Roman Steeg's farm.

The recent mild spell has enabled farmers in this district to prepare for Spring work.

### Notices!

Mr. Conrad Gabel is holding a clearance sale on Friday March 14.

Mr. Pete Baron will hold his mammoth sale of stock, machinery, etc., on Monday March 17.

Don't forget August Burge's sale on Sat. March 22.

### NOTICE!

To the Party (Name not known) who left a Team of Horses on my place at Spruce Grove on Dec. 2, 1929:

TAKE NOTICE that the Team of Bay Geldings, wt. about 2500 lbs., 10 and 12 years, no brand, have been kept on my place since the above date, and the costs against them to date amounts to \$75.00.

TAKE NOTICE, if this sum and the cost of advertising are not paid within a reasonable time, the above animals will be sold to liquidate the bill against the team and costs.

DATED at Spruce Grove this 6th day of March, 1930.

DAN BROX,  
Spruce Grove, Alta.

CANADA.

ATTENTION SALE OF SCHOOL LANDS.

PUBLIC NOTICE is hereby given that an Auction Sale of School Lands will be held in the Province of Alberta, at the place and on the date hereafter mentioned:—  
EDMONTON—Thursday, April 3rd, 1930, at 9 o'clock A.M.

The lands to be offered comprise only those which have reverted to the Crown owing to cancellation of former sales and which have been re-surveyed and valued at \$7 or more per acre.

The lands will be disposed of subject to the usual terms and conditions pertaining to the sale of School lands at public auction.

Where any parcels of land are not sold the cultivation privilege for the year 1930 will be offered at time of sale and disposed of to the highest bidder, in accordance with the terms and conditions which will be announced at time of sale.

### TERMS OF PAYMENT.

One-tenth in cash at time of sale, and the balance in eighteen, equal annual instalments with interest at the rate of six per cent per annum on the balance of the purchase money from time to time remaining unpaid, except in cases where the area of the land sold does not exceed forty acres, in which cases the terms of payment shall be one-fifth in cash and the balance in four equal annual instalments, with interest at the rate of six per cent per annum; overdues payments, whether of principal or interest, to bear interest at the rate of seven per cent per annum.

For Sales boundaries, other places at which sales will be held, for further particulars see posters posted in postoffices, or apply to the Agent of Dominion Lands for district.

Lists of Lands to be offered may be had on application to the Commissioner of Dominion Lands, Department of the Interior, Ottawa, Ontario, or to any agent or sub-agent of Dominion Lands in the Province of Alberta.

By order,  
J. W. MARTIN,  
Commissioner of Dominion Lands,  
Department of the Interior,  
Ottawa, 1930.

flushing a trifle as Charman, on solid ground again, looked up at him, "to see if you were going to the strawberry festival tonight. If you are, I'll stop for you with the car as I go along."

A disconcerting smile curved the girl's lips as she replied: "That's books. Have you two been properly introduced? Jim, this is Doctor Carter."

"Bother!" he exploded. "Who said it was a bother?"

Charman's smile broadened to a laugh.

"Well, you see, I promised Doctor Carter to let him tag along, so I won't you. That's a stunning suit, Jimmy. You look like a — a bridegroom!"

Jim flushed again, angrily this time.

"Look here, Charman," he began hotly, "if you're mad because I took Clara Darling to that so-called and the picnic at the Falls, why I don't mind saying —"

"Mad!" broke in Charman. "Why on earth should I be mad, I'd like to ask?"

Jim's color was fast becoming apoplectic.

"Well, other times I—I've always taken you, but Clara was visiting here, and Mother — You see —"

"Yes, I see," said Charman, coming to his rescue. "I see perfectly. Now run along, Jim, and let me get to work. Doctor Carter's going to use this for an office. Won't it be darling? Not darling like Clara, but —"

"Have you gone crazy?" Jim interrupted angrily. "And do you mean to say that able-bodied fellow is letting you clean this filthy place alone?"

"On the contrary," explained Charman, moving suggestively toward the door, "he gave orders that I was not to touch it; but it's a hard job and I thought I'd make a start. However, if you keep me talking much longer —"

"Oh, I'll clear out," said Jim. "It's evident that I'm not wanted. And about tonight—I guess I won't go after all."

Charman laid a tempting hand upon his arm.

"Don't be an idiot, Jim. Of course you'll go. Tell me, is Miss Darling going to stay all summer?"

The young man ignored this question as he shook off her hand roughly and strode away. For a moment Charman stood, watching him, knowing, by the rigid set of his shoulders that he was "all riled up," as Grandma would put it.

"Dear old Jimmy," she sighed, as she mounted the ladder again and lifted a dusty volume. "I'm wicked to punish you just for being an obedient son. And you are a dear, most of the time. You're as dependable as the town clock, or would be if your mother would give you half a chance. You looked fine in that suit, too—really handsome. I wonder if Clara Darling made you buy it? I—Why, Jim! did you forget something?"

Jim was back in the doorway, looking up at her.

"Yep," he replied boyishly. "I forgot my manners." He took a step nearer and said, hesitating, "I—just wanted to see if I couldn't help you. I've got a half day off, and this is no sort of work for you, Charman, lifting those heavy books. Let me get up and hand 'em down to you."

His coat was off before Charman could utter her touched surprise.

"You'd do such things! You'd simply ruin that new suit!"

"What's a suit—between friends?" asked Jim, looking around for a clean spot to lay his coat. He laughed, and was, suddenly, the old Jim who had been her life-long comrade. She said, genuine affection prompting, the words: "Jim, you're a tramp. I ought not to let you, but these books are heavy and—here, put on this linen duster and roll up your sleeves. Hand me the top books first, and go slowly for I have to wipe them off. I'll admit that a man about the place is a great thing."

"If you want one — permanently."

he began from the top of the ladder, when a step sounded on the sidewalk, and John Carter appeared in the wide doorway.

## CHAPTER V.

Jim stopped in the middle of this important sentence, glared down upon the new doctor, while Charman uttered a relieved: "Oh, it's you! I thought you'd gone with Doctor Howe."

"And I thought I told you not to touch this place; but I see you've secured help. That's fine. I—"

So he supposed she had hired Jim! This appalling thought swept through Charman's brain. If Jim guessed he'd be furious, and a foe to John Carter for the rest of his natural life. With haste born of real consternation she interrupted: "Indeed, I have! Jim Bennett was good enough to offer his assistance in lifting down those heavy books. Have you two been properly introduced? Jim, this is Doctor Carter, our new boarder. Jim's an old chum of mine, Doctor. He used to carry my books to school for me and fight my battles. You ought to be friends."

The young man on the step ladder looked the reverse of friendly at just that moment, but he descended, and reluctantly gripped the hand which the doctor had extended.

"I was only giving Charman a little help," he explained, somewhat breathlessly; and added, a belligerent note creeping into his voice, "this is no sort of work for a girl, it seems to me."

"You're right. Miss Davis will tell you that I told her not to touch it. I expected to go with Doctor Howe this morning, but when I told him of this scheme for an office he gave me the day off. He thought it a great idea, and I'll say I'm in luck! I'll get some old clothes and be back in a jiffy to pitch in."

"Well," began Jim, removing the duster and reaching for his neatly folded coat. "You won't need me now so I'll run along. I—suppose you see an awful lot of that fellow, Charman?"

Charman was obliged to conceal a smile of triumph at this evidence that Miss Darling was not vindictive.

"I eat three meals a day with him," she answered. "Later on, if I get the school, he'll have his quinquers at the hotel."

"It makes me hot—your cooking meals for him," confessed Jim, as he slipped into his coat.

"What nonsense!" laughed Charman. "Can't a body take a boarder without making you look like a thunderstorm? Wipe that scowl off, Jim. It's not becoming. You're ever so much nicer when you smile. Say! If you've got time, run in and speak to Grandma, won't you? She gets lonesome sitting there so long; and why not sit in tonight and go along to the festival with us, Jimmy? I'd like to have you, honest I mean, cross my throat and hope to die," as we used to say."

This was reward of merit for his offered help; but Jim answered, a sarcastic twist to his lips that was something new: "Seems to me I've heard somewhere that there's a crowd. Thanks, my dear, but I know enough not to butt in where I'm not wanted."

"As far as I'm concerned," began Charman, knowing that down inside was really hurt, but John Carter's untimely entrance interrupted what was intended for a soothing speech, and with a smothered "Damn," that wasn't really so smothered as it should have been, Jim took his departure.

The doctor gave vent to an expressive whistle as he watched the young man's muscular figure move stiffly across the gravel driveway.

"Your friend seems not to like me," he ventured ruefully.

"Give him time," smiled Charman. "He's slightly irritated this morning because he'd planned to escort me to the strawberry festival tonight and you've cut him out!"

"He is, I take it, the man who has recently been enamored of a green hat?"

"The same," admitted Charman, showing a bewitching dimple. "But now let's get to work. If you'll take Jim's place on the ladder we can accomplish wonders before I have to start dinner."

Meanwhile Jim Bennett had crossed the strip of lawn and walked in on Grandma, who was watching with interest the struggle of two small boys over a stick of candy, which drama was taking place on the opposite sidewalk.

"There!" she exclaimed, with a nod of welcome, "they've broken it all to bits, and serve 'em right for being pigstish. I don't like that Eldridge boy. He's always picking on the younger ones. Well, Jim, you're quite a stranger. Sit down. How happens it you're loafing this morning? And you've got a new suit, too. Stand up and turn around. It certainly does set well. Did you see Charman? She's cleaning Father Davis's office for the doctor. Well, what's the news?"

"News?" echoed Jim. "There never is any—in Wickfield."

"No news!" said Grandma indignantly. "There's a plenty, if only you keep your eyes open. Not a day passes, Jimmy, but I see something interesting going on, right under this window. Seven times this fortnight I've seen a young man ride by in an automobile with the brightest green hat beside him that ever I laid eyes on. Lizzie Baker says it's sinful—the hat, I mean; but Charman says it's becoming. What do you think about it, sonny?"

(To Be Continued.)

## Within His Rights

According to a German judge, a person temporarily deranged is within his rights in attempting suicide; from which it would appear that it's perfectly all right to jump from a twelfth-story window or to throw yourself in front of a train, if you happen to be really crazy about it.

KEEP THEM HAPPY BY  
KEEPING THEM WELL

It is natural for children to be happy, active and full of fun. When they are fretful, fussy and disinclined to play you may be sure something is wrong. Almost invariably that something lies in the digestive tract.

It is to meet the need for an absolute safe corrective of childhood ailments that Baby's Own Tablets have been designed. They gently regulate the stomach and bowels and thus drive out constipation and indigestion; break up colds and simple fevers and allay teething pains. Concerning them Mrs. W. E. Forsyth, Dover, N.B., writes:—"I would not be without Baby's Own Tablets as I know of nothing to equal them for fretful, fussy babies who are troubled with colds or four stomach."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Derbies look fairly good on some people, but they look best on hats.

## Minard's—50 Year Record of Success.

An educated man is one who knows where the Chinese are fighting again or yet.

Daughter: "Oh, papa, what is your birthstone?"

Father of Twelve: "My dear, I'm not sure, I think it's a grindstone."

One rapid transit system serving New York City alone hauls more than one one-half billion passengers in a year.

Corns are painful growths. Hollaway's Corn Remover will remove them.

Needless Pain!

People are often too patient with pain. Suffering when there is no need to suffer. Shopping with a head that throbs. Working though they ache all over. And Aspirin would bring them immediate relief!

The best time to take Aspirin is the very moment you first feel the pain. Why postpone relief until the pain has reached its height? Why hesitate to take anything so harmless?

Read the proven directions for checking colds, using a sore throat, relieving headaches and the pains of neuralgia, neuritis, rheumatism, etc.

You can always count on its quick comfort. But if pain is of frequent recurrence see a doctor as to its cause.

## Treat Colds 2 ways

With One Treatment

RUBBED on throat and chest, Vicks does two things at once:

(1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and

(2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

acts 2 ways at once

VICKS VAPORUB

OVER 75 MILLION JARS USED YEARLY

"After Baby, Was Weak, Skinny, Gained 22 Lbs."

Infected Yess! Did it, says Mrs. M. Thomsen, thousands say it is the greatest in 3 weeks. Nervousness, constipation, this clears the magic. Get Infected Yess! from Druggist today.

## Little Helps For This Week

"Though He be not far from every one of us."—Acts xvii, 27.

He hides Himself within the love of those that we love best: The smiles and tones that make our homes,

Are shrouded by Him Possessed.—William Channing Gannett.

For eternal life the ideal state is not something future and distant. Paradise is here visible and tangible by mortal eyes and hands whenever self is lost in loving, whenever the narrow limits of personality are beaten down by the influx of the Divine Spirit.—Mrs. Humphrey Ward.

### Collingridge-Cooper

A wedding was solemnised on Sat. March 8, when Phyllis, daughter of Mr and Mrs I Cooper, Duffield, became the bride of Horace George, son of Mr and Mrs J Collingridge. The ceremony took place at the Anglican church, Wabamun, by Rev A Elliot, the pastor. Miss Mina Collingridge was bridesmaid and W Egan was groomsman. A reception was held at the home of the bridegroom's parents. The happy couple will reside at Gunn.

### Ebricht-Treit Baron--Treit

On Friday, Feb 28 a double wedding took place at St Matthew's Church (Missouri Synod) when Miss Margaret Treit was united in marriage to Mr Henry Baron, and Miss Mary Treit was united in marriage to Mr Frederick Ebricht. The brides were the two daughters of Mr and Mrs Andrew Treit. The ceremony was performed by the pastor, Rev E Eberhardt. The ceremony was followed by a big celebration at the home of the brides' parents.

### With the Curlers

Some interesting games were played off in the bonspiel just concluded at the local rink. The McCulla out-fitted grabbed the Grand Challenge while Yeats took the Merchants' competition. The doughty Woods and his cohorts had a merry time throutaking some of the alleged heavy weights down the line with great gusto.

The final game in the Consolation between Wood and G Oppertshausner was a thriller and had the spectators on their toes, George refusing to let go the sack of flour until an extra end was played. Russ, is there in the pinch.

The genial lead of the McCulla gang decided that a game between the winners of the Grand Challenge and the Merchants' competition should be played, as they had not previously met. The game was close and interesting all the way, McCulla being at the top of his form. Coming home on the last end all tied it looked as if McCulla had the game all nicely tucked away, when he had his last rock well guarded, but with his last rock Yeats nosed him out.

A couple of rinks visited the Edmonton club over the week end to decide which club would retain the cup for another year. The Stony Plain boys were in great form, defeating the Edmonton gang by 13 points. McCulla's rink composed of G Oppertshausner, W E H Lewis and H Oppertshausner, lost the afternoon game to Arnold Johnson 15-9, but came right back in the evening game to take McLeod into camp by 15-10. Yeats and his henchmen, Wood, Zucht and Michael, put the skids under McLeod and Johnson 15-10 and 13-4.

**AUCTION SALE!**  
in Stony Plain,  
**SAT. MARCH 15.**  
**M. Zucht, Auctioneer**

### Calendar.

MARCH—  
13—Jaga Councilors meet, Stony Plain.  
14—Conrad Gabel's Sale.  
15—Stony Plain Local of U.F.A. meets.  
15—Auction Sale in Stony Plain.

17—Pete Baron's Sale.  
22—August Burger's Sale.

### Church Services.

The next English Lutheran services in Stony Plain will be held March 23d.  
United Church service every Sunday Evng at 7.30.

### War on the Bots.

Mr Frank Lawrence, of Unity, the well known breeder of Clydesdales, and who has successfully shown these on numerous occasions at Edmonton Exhibition, was a visitor in Stony, Friday last.

Mr Lawrence is a delegate from the League for the eradication of Nose Flies, and was here for the purpose of appointing organisers and treaters in local districts. The idea is to organise small associations and have every horse owner a member. The treating of the horses will be done by capsule. This treatment has been very successful wherever tried, and beneficial results can be guaranteed from the use of the capsules.

These may be obtained at Stony Plain Pharmacy. The capsules are set at a low cost. The treatment for a colt is 36c, and for a more mature animal 65c.

Those appointed to operate hereabouts are—  
M McKinlay organiser, and T Graden treater.

Ph Kornberger organiser, with T Graden treater.  
Lawrence Davidson and H J McDonald.

Two have been appointed in Spruce Grove district, and two in the Winterburn district.

### Hansen's Corners.

The many friends of Mr and S H Powell will be pleased to learn that they are back in this province once more.

Hansen's Corners are slowly recovering from their recent great shock.

Mr Wm Sharp, who has been in poor health of late, is now able to be around again.

Mr and Mrs Earl Erickson will shortly be in their new house.

"Big Jim" is acquiring a Bulldog tractor.

Mr Peter Goebel is expected to arrive home shortly.

Mr Sterling has finished his contract with Mr Clark.

Mr Geo Clausen is able to be around again, after his late illness.

Mr Gust Erickson has just finished sawing "Big Dan's" wood pile.

Mr Carl Clausen has purchased 70 head of sheep.

The Plymouth Rock preachers have vacated this district.

Some are talking of remaining this district "New Mexico II".

Complaint is now made that the news items from Hansen's are so breezy, that a postmaster gets a cold in the head before he has read half a column.

## Here and There

(487)

A revelation of the wide range and high quality of manufactured products entering in the twin cities of Port William and Port Arthur was commented on by visitors to the "Home Industry Exhibition" held at the former city recently. The Exhibit was open only to bona fide manufacturers of the two cities and one hundred entrants had displays in which there was practically no duplication of products.

Forty years ago not a tree could be seen growing on expansive stretches of the virgin prairie in western Canada. To-day trees are plentiful and there is hardly an established farm house but has its shelter belt or a grove of poplars, maples or some other variety of trees. Recent reports of inspectors of Canadian Government Forestry Service show that there are 7,600 farms thus provided and to date over 100 million trees have been distributed over the prairie, with many millions more bound for nurseries and plantations.

Alberta led the western provinces in the number of successful tree plantations made in 1923 by the Canadian Colonization Association with a total of 487 families settled on 50,203 acres and with 12,000 trees planted in land settlement for the province, at a meeting in Calgary recently.

The first of the Canadian Pacific Railway broadcasting took place February 21 over C.K.A.C. from Montreal and K.C.W. from Toronto and will be repeated every Friday thereafter. These stations were linked over the Canadian Pacific telegraphs which allow the use of technical tap overcasts brought into use for the first time. Running from 10 to 11 on the nights of broadcasting the concerts will be made up of light symphony orchestral pieces and renderings of light and belting opera music. The service will be built up with the slogan of "Cheerful and Good" and the orchestra will be under the leadership of Rex Battle, a conductor whose brilliant work has won wide popularity. Sea chanty music and French-Canadian and other folk songs will also be featured.

Appointment of L. C. McOut, one of the Dominion's leading agriculturists, as general agricultural agent of the Canadian Pacific Railway, announced recently, is further evidence of the railway's interest in the development of Canada. Mr. McOut has had 15 years' experience in agricultural and livestock affairs and enjoys the distinction of having represented Canada on an Imperial committee to study the meat supply of the British Empire.

Shriners making the Royal York Hotel, Toronto, their Mecca next June for their Imperial Council sessions, will find a city ready built and equipped for 8,000 people at their service. The Canadian Pacific Railway are now building "Fox City" composed of railway sleeping cars and marquees to take the place of administration and service buildings. The new city will closely adjoin the Exhibition grounds where the convention is to be held. It will be divided by "The Midway" and its full length will be adorned with a motor road to be known as "Hammes Drive." Streets numbered 1st, 2nd, 3rd, etc., will radiate from "Midway."

### Railway Time Table

Going East—Mon., Wed., Fri. at 7:01; every morning at 6:23.  
Going West—Sun., Tues., Fri. at 12:29; every midnight at 24:04.
